(Carvozzo)

Here is one of the most Gigantic flowered Gladiolus it has ever been our pleasure to see or grow. Have grown this variety under ordinary field cultivation to a height of over 7 feet. A vivid bright red with wide open florets up to 8 and 9 inches in diameter. At the Washington State Seedling show in 1948 Mr. Carvozzo won hands down over anything else which even looked good with this variety. While this variety will never be of any value as a cut flower, it will certainly take plenty of ribbons on the show bench. Bulblets germinate readily and make good sizes, mostly large and medium from one years growing. Due to the many requests by visitors to our Trial Plot in the last two years to obtain some of this variety, Mr. Carvozzo has given us permission to go ahead and introduce this Super Giant of the Gladiolus World.

Priced per each any size bulb \$2.50

With the purchase of each bulb you may have 10 bulblets for \$2.50

All bulbs offered in this list are Western Washington grown.
Fusarium free, top quality bulbs.
